Forecast for Friday 14 Oct 2022

Weather: Low cloud, mist and patchy drizzle overnight and early morning. This should lift and break with some bright or occasional sunny spells developing around the middle of the day. However, a band of showery rain will arrive from the northwest by the evening, which should clear before midnight.

Chance of cloud-free hill tops above 600m: 90%, but 40% early and late in the day.

Low cloud and visibility: Extensive cloud, base 600 m, patches down to 300m, early in the day, but lifting and breaking above the summits. Visibility moderate or poor in any rain, drizzle and mist, occasionally very poor at first over the tops. Otherwise good or very good.
